Nursing  
Core  
Course**

*Fifth Edition*

## TNCC

### (Trauma Nursing Core Course)

The purpose of TNCC is to present core-level knowledge, refine skills and build a foundation in trauma nursing.

Trauma nursing refers to the nursing process and variety of roles nurses have in trauma patient care. TNCC is a course designed, developed and implemented by ENA to provide the learner with the cognitive knowledge and psychomotor skills of trauma nursing.
